

AVERY & BRIAN BAKER

A/V NEEDS

- Avery and Brian require two Lavalier mics and one wireless handheld microphone.
- Avery and Brian will be available 1-2 hours ahead of their presentation to conduct an A/V check, preferably, without attendees in the room.
- The stage should be clear of podiums and/or tables. For the best experience, attendees should have an unobstructed view of the speakers.
- Avery and Brian will use PowerPoint slides for their presentation. Please note that they will not convert their slides to anyone's template.
- Two hightop stools placed on stage for Avery and Brian.

- **For workshop presentations only:** Round tables are strongly preferred as the attendees will engage in interactive activities and group discussions.
